Affordable, Accessible Care

We believe routine healthcare should be affordable and accessible for everyone. With rising healthcare costs and high deductibles, you need a resource for affordable, accessible, quality family healthcare. The Community Care Clinic, a division of Bronston Chiropractic, provides diagnosis and treatment of common medical conditions, including digital X-rays, lab testing, and prescriptions.

Office visits with our qualified health professionals are very affordable. We'll also connect with your insurance to help you get the most out of your healthcare benefits, lowering the overall amount that you pay out of pocket. Referrals to collaborative providers, as needed, ensure seamless healthcare networking.

At our convenient Onalaska clinic, you'll wait less and spend less on professional healthcare.

Quality Medical Services

Sore throat, earache, urinary tract infection, or other common medical need? Our Community Care Clinic can usually provide same-day healthcare. Services include sports physicals, vaccines, DOT exams, and drug testing. Telemedicine appointments from work or home are available for your convenience.

What sets us apart? First, expertise; our team is headed by Dr. Leo Bronston, a leader in healthcare with experience serving on the American Chiropractic Association (Board of Governors) and the American Medical Association (CPT editorial panel). Second, personal care; we take the time to listen to your needs, and you can expect to see the same provider each visit,

following a treatment plan formed just for you. Third, fast recovery; we know that when you have an injury or illness, you want to feel better quickly, so you can get back to work and the activities you love.

Patient-Centered Care

As our patient, you come first. We are a proud recipient of the ChiroCare Center of Excellence award from Fulcrum Health, Inc. This designation confirms that we follow well-defined procedures, so patients receive consistent care and optimal outcomes. You can count on us to go the extra mile, putting your health at the center of the care experience.

Our Holistic Approach

We start by diagnosing your current medical needs, assessing your overall health, and offering the best course of treatment. As we help you get better, we'll teach you strategies for improving your health and preventing future illness or injury.

Through Bronston Clinics, you also have access to chiropractic care, physical therapy, and massage therapy.

Our Values

Dignity:

Provide respect for individual differences

Service:

Exceed patients' expectations

Compassion:

Provide a caring, supportive environment for patients, families, and caregivers

Integrity:

Employ high moral principles and professional standards with a commitment to honesty, confidentiality, trust, respect, and transparency

Quality:

Maintain the highest standards by continually measuring and improving outcomes

Our Promise to You

Trust us, as qualified health professionals, to provide the best patient experience for you and your family.

Employer Services

Bronston Clinics offers special contracting with many area businesses, including education and government groups.

Your employer may participate in a contract with our clinics, offering you free, no-deductible, no co-pay coverage.

Please check with your employer regarding benefits.
